Decelerator® Slip-On™ Recoil Pad is the only slip-on pad with Pachmayr's patented Speed-Mount Insert promising snag-free mounting.

Pachmayr - a Lyman brand - has introduced the new Decelerator Slip-On Recoil Pad which combines the advanced recoil control of the popular Decelerator internal design and material with Pachmayr's patented Speed-Mount insert. A Pachmayr original design, the Speed-Mount insert gives hunters and target competitors alike the benefit of smooth, snag-free mounting while delivering magnum recoil reduction. Although originally embraced by sporting clays competitors, Pachmayr's Speed-Mount insert makes perfect sense for any form of shooting or hunting where quick shooting is as important as recoil reduction.

The new Decelerator Slip-on Recoil Pads are available in three sizes and two colors. The black version of Pachmayr's new slip-on is ideal for today's popular synthetic stocks, whether black or camo. For vintage guns or the latest modern designs, the brown version minimizes recoil while retaining the gun's original specifications and value. Best of all, all these features are offered at a price that is no more than other, less advanced pads.

Pachmayr's New Decelerator Slip-On Recoil Pad, as well as all Lyman products and brands, are available nationally through gunsmiths, firearms and sporting goods retailers and mail order companies. Pachmayr, TacStar, Trius Traps, Butch's Gun Care, TargDots and A-Zoom Precision Snap Caps are all Lyman Brands.
